## Statement from Rep. Amy Sue Vruwink

MADISON – Today Rep. Amy Sue Vruwink released the following statement:

“There has been a lot of speculation recently about me taking a position at the state Department of Agriculture, Trade and Consumer Protection. While I appreciate being thought of as a leader in agriculture, I will continue to make agriculture a top priority as a legislator. I will remain in the legislature and continue to serve the extraordinary, hardworking people of the 70<sup>th</sup> Assembly District.

“However, my brother is continuing to fight his battle with pancreatic cancer. Therefore, my focus will continue to be on my family and my district. I ask that the press please understand and respect my family’s need for privacy at this time.”
